

## SOLUTION SUMMARY

# BUILD ORACLE FORMS 20X FASTER WITH 100X LESS CODE.

**Oracle APEX** is a low-code development platform that enables you to build stunning, scalable, secure apps with world-class features that can be deployed anywhere.

Using APEX, developers can quickly develop and deploy compelling apps that solve real problems and provide immediate value. You won't need to be an expert in a vast array of technologies to deliver sophisticated solutions. Focus on solving the problem and let APEX take care of the rest.

## ORACLE FORMS

Oracle forms has been a long-established technology popular for building business applications for years.

Today **Oracle APEX** is the preferred platform for transitioning Oracle Forms applications to modern web apps. Existing stored procedures and PL/SQL objects work natively in APEX, making the transition a natural process.

*(See reverse for solution details)*

# WHY USE APEX?

- Similarities between Oracle Forms and APEX make revamping and extending your existing Forms applications easier
- APEX applications are responsive, and run within a browser on a variety of devices including mobile devices, desktops, and tablets without the need for additional plugins like Java
- Cost - As a feature of the Oracle Database, APEX is available to you with your Oracle Database License
- As a low-code tool, APEX enables developers to rapidly develop applications using pre-built frameworks like wizards, web components, navigation, and themes.
- The flexible development environment built into APEX allows developers to code from a variety of different environments, like on a laptop, on-premises, or in the cloud.
- Proven migration path - Large numbers of forms applications have been successfully migrated to Oracle APEX throughout the years.
- Leverage your organization's existing Oracle IT skill sets because Oracle APEX is built on an Oracle database using PL/SQL.
- Improve your existing applications with new Dashboards, connect to Web services, and extend the value of your applications with all the newer built-in features of APEX.

## APEX WORKS SEAMLESSLY ALONGSIDE ORACLE FORMS

There is no need to give up your existing Oracle Forms applications. APEX can be used to transition your existing applications as you desire, at a pace at which works for your organization's schedule.

- Don't stop at just replacing your Oracle Forms with APEX. oAppsNet Partners can help improve your application at the same time by extending functionality and automating existing manual processes.
- Lean on oAppsNET to provide guidance and reduce the risk of your forms modernization efforts

## OAPPSNET PARTNERS WILL BRING YOUR PROJECT IN ON TIME AND ON BUDGET
